# How will HST Affect Your Business?

## New Liskeard

ATTEND OUR FREE SEMINAR

**WHERE: Collège Boréal** (280 Armstrong St N)
**DATE: Thursday January 14, 2010**
**TIME: 6:00 PM until 7:30 PM**

In the 2009 Ontario Budget, the provincial government announced its plans of introducing a value added tax, harmonized sales tax (HST) to Ontario. It received Royal Assent in the Legislative Assembly of Ontario on December 9, 2009. The implementation of HST is not a standalone initiative but rather a part of a tax strategy, including corporate tax changes. The face of the business tax world is going to change dramatically over the next 5 years.

Information about these upcoming changes has been sketchy and difficult to understand, at best, and completely absent at worst. We are going to assist business owners in understanding the changes HST is bringing about, what is happening, how to be prepared, and how it will impact their business. In the seminar, topics covered will include:

What is HST?
How does HST fit into the tax strategy and what competitive advantages are there?
Who does HST impact?
What dates do businesses need to be aware of (HST does not transition completely on July 1, 2010)?
What services or products have different tax treatment?
What does it mean for you?

- How will HST impact your business or your region?
- What will the economic impact be on your market?
- What do you need to do to be ready for HST?
